

## URGENT ATTENTION

### WOW MEMBER CORPORATION & TAX FILING NOTICE

As a member in Wow Win on Wealth awaiting the corporate starter loan program, we can assure you that we are in the final stages to have a rollout funding plan. Presently, we collectively must attend to two critical aspects in relation to some of the member registrations:

- If you were registered a corporation, we must assist you in filing the IRS and State Tax Returns
- If in California we also must address the annual fee for 2023, which in some states (if companies exist) may be a similar challenge.

The Better Business Builder company by contract filed the corporate formation generating a solely owned company, whether it's a Stock "C" Corporation (IRS form 1120) or LLC entity (IRS form 1065), which means you control the company and hold responsibility for all use and reporting. We at WOW know this was only formed to support the Corporate Loan for \$100,000 applied for, and as such we will assist in making sure the tax reporting for this new company is completed.

We as an organization have arranged a method to assist every member with completing the proper tax filing as required for the IRS tax return and to dissolve the California franchise tax board obligation for 2023 (\$800) which can be cancelled by filing the "final" tax return correctly.

Win-on-Wealth will take responsibility to reorganize a new corporation after the Final return closes the original company. This new company formation process will be completed as we create a schedule for the WOW corporate loan closings, and at no additional costs to the member.

We will post on the Website and Email members the correctly completed form for the IRS, which is the most important filing, and assist you in completing the more complicated State tax returns. You simply follow the instructions, and you can complete this process yourself quickly, and we only ask is that you keep a copy and take a cell phone picture of the first page and go back to the Website link to confirm and upload the first page proof, so we have records of the filing.
